

Healthcare

**Le Centre Dentaire
Ville St-Laurent, Québec**

**PRODUCTS USED:
Expona Flow PUR**

High design Expona Flow PUR sheet vinyl flooring from Polyflor was used for a complete refurbishment of Le Centre Dentaire in Ville St Laurent, Québec.

Approximately of 209m² of Expona Flow flooring in the Painted Chevron design was installed by flooring contractors Excel Sol in the dental practice of endodontist Dr. Chafic Safi. Chosen by interior designers Influence Design of Laval, the flooring was fitted throughout the practice, in the reception area, treatment rooms and circulation areas. The Painted Chevron design recreates the look of white wood planks laid in a dramatic chevron pattern.

Developed to provide a broad range of engaging and innovative design options, Expona Flow is suitable for use in a range of heavy commercial environments such as the healthcare industry. Manufactured in the UK, the collection features 50 wood, stone and abstract effect designs.
