The Camaro collection of luxury vinyl tiles (LVT) is a well-established and trusted range of authentic, creative and practical floor coverings. To sit alongside the main Camaro product brochure, which presents the full collection, we have introduced this design supplement to highlight a selection of additional ideas, which we call our CREATIVE EDGE.

Interior design, especially within home interiors, is increasingly becoming a vital and more accessible area of focus, helping to create unique environments specifically suited to each individual. With this in mind, this brochure introduces a number of high-design flooring installations along with stunning interior styling tips. Whether you long for the classic charm of a wood parquet or natural stone floor or you wish to push the boundaries further, the following imagery will undoubtedly spark that creative fuse.

FLOOR DESIGN CATEGORIES

Each image within this brochure is accompanied by 1, 2 or 3 stars. This is to give you an indication of the complexity of the design and the pre-cutting required. On page 38 we provide more detail on this and take you through the price guide. Remember, this is only a selection of the floor design ideas which are possible with Camaro and if you have your own, your local flooring provider will be able to offer further advice.

It's worth remembering that if you see a colour you like you can order a free sample through our dedicated samples department at polyflor.com/samples or on +44 (0)161 767 2551.
The lively and unpredictable decoration of Nut Tree lends itself perfectly to a bespoke parquet floor design. The smaller woodblocks highlight the inherent variation found in this type of timber, resulting in a truly authentic effect.

SHOWN: Cut length herringbone design
Featuring a classic, close grain structure and beautifully blond tones, American Oak is traditionally utilised in a standard straight lay format. Here we have turned this notion on its head by cleverly creating a highly contemporary triangular woodblock effect highlighted by a contrasting inlay strip, which questions the perception of the limitations of natural materials.

**SHOWN: Triple row wood triangles with Natural Oak Marquetry Strip**
White and grey wood has seen a huge spike in interest within the last few years and is often utilised in furniture and accessories as well as flooring, due to the fresh base colours. The above images show how these colours can be used in a more graphic way to present an exciting reclaimed timber effect.

**SHOWN: Mixed length and colour, random laid**
SMOKE BRUSHED ELM

The successful use of bold colours in highlight furniture is often accompanied by a softer and more muted flooring colour, but this should not prevent you from adding that touch of creativity. This installation showcases the delicate definition and character of Smoke Brushed Elm in an elegant quarter plank herringbone design. To achieve the correct cut, we use Polyflor’s specialised in-house waterjet cutting process.

SHOWN: Half width and length plank, in herringbone design
The rich, warming tones of Roasted Oak instantly conjure up images of historic interiors, whilst the classic colourway and woodblock parquet pattern bridges the genres of traditional and contemporary styling.

**SHOWN:** Woodblock design in two-part tessellated blocks

**ROASTED OAK**

**CREATIVE EDGE**

CLASSIC OAK

Tradition, heritage and a sense of comfort are all instantly brought to mind with Camaro Classic Oak. The beautifully crafted practice of conventional woodblock flooring is well and truly respected here with this offset parquet design, creating an instant classic.

SHOWN: Square-cut woodblocks, offset and tessellated
Whenever it comes to selecting your floor design, creativity should not be stifled by practicality. Rich in heritage, parquet effects are firmly back on the agenda when it comes to adding that extra touch of detail. Opting for a herringbone design, a woodblock finish or any other parquet styled wood cut pattern couldn’t be easier, allowing you to bring these classic designs to life, often with a contemporary twist. Polyflor can supply any of these floor patterns as pre-cut designs. Ask your local flooring provider for further details on the simple ordering process.
Recreating a classic black and white floor is perhaps not as easy you one may imagine; the size of tiles, the type of material and the overall design are just some of the points to consider. For this particular design, we have taken inspiration from classic marble interiors from a bygone age and brought them firmly into the 21st century with an eye catching dogtooth pattern. The intricacies of tile cutting is one less thing to worry about as it’s taken care of through Polyflor’s precision waterjet cutting facility.

SHOWN: Bespoke dogtooth design

BLACK & WHITE OILSHALE

2340 BLACK OILSHALE
304.8 x 304.8mm

2331 WHITE OILSHALE
304.8 x 304.8mm

PRICE GUIDE

BESPOKE CUTTING
Utilising the sleek and subtle tones of White Metalstone along with heavier marked and lively Crema Slate not only plays against the senses but creates a striking visual effect. The graphic styling of this offset chevron pattern will work equally well with different Camaro colours, including single colour or contrasting woods.

**SHOWN:** Offset chevron design
MAKE A STATEMENT

There comes a time when each of us need to stamp our identity on our surroundings. This may manifest itself in a piece of statement furniture, artwork or off the wall paint colour, but especially within the floor. We continue through our creative process with this spectacular tri-colour diamond design, produced through the bespoke precision cutting and mixing of 3 Camaro tiles. Each of the colours are stand out products in their own right but when brought together in this ultra-modern random design, the result is truly sensational.

BESPOKE CUTTING
Simplicity is often the key to achieving a level of style and sophistication. The mix of standard straight lay planks or tiles can also open up a world of possibilities. Even when the tiles are different sizes, the effect can still meet your design requirements. This clean and uncluttered example offers up a quiet confidence which ties in perfectly with the rest of the interior scheme.

**SHOWN:** Straight laid mixed colour pairing

**CLASSIC LIMESTONE + SERPENTINE**

As with the wood parquet options, the stunning appearance of Camaro Stone and Design tiles can be utilised in bespoke cut creations to achieve a unique and exciting floor concept specifically suited to your own personal taste. We present a selection of possible options, including multi-width tiles, offset keysquares, herringbone patterns, chevron designs through to intricate waterjet cut shapes such as dogtooth. Keep it simple or really go to town with a statement design, the freedom of choice is up to you.
The design floors contained within this brochure have been developed using selected designs from the Camaro luxury vinyl tile range. The following pages show all 30 wood and stone designs available, and if you wish to browse through more inspiring interiors, order samples or view the full brochure visit www.polyflorathome.com.

With regard to colour printing, it is only possible to give a provisional representation of the colour. For colour selection, an original sample should be used which we shall be pleased to supply. To replicate the natural material, the wood effect products may contain knots or markings as part of their design.

1. STANDARD TILES & PLANKS - NO CUTTING
Use full tiles and planks and lay in full plank herringbone and other designs, using strips to create the illusion of larger sized planks and tiles. This is a great way to create interest at no additional cost.

2. STRAIGHT CUTS
Make tiles and planks smaller for more intricate designs, utilising strips to highlight plank and tile edges. These designs incur a cutting charge per m² in addition to the flooring costs.

3. BESPOKE CUTTING
If you would like to create a truly bespoke flooring design that adds impact to your interior, then we are here to help you realise your vision. Almost anything is possible. Price upon request.

CREATIVE EDGE
PRICING GUIDE

To make choosing the right design floor for your interior and budget quick and easy, we have created this simple 3-star pricing guide that rates each design by the complexity of the cutting involved. Some of the designs shown in this brochure require no cutting at all, however those designs that require either a straight or bespoke cutting service are all performed by Polyflor’s team of specialists, and can be ordered through your local flooring provider.
FLOORCARE

We want your new Camaro floor to become a design and functional feature for many years to come and to help you achieve this we have laid out the following floorcare guidelines. Each product in the Camaro collection features a polyurethane reinforcement within a hard-wearing surface providing protection against everyday wear, ensuring optimum long-term performance of your floor. Furthermore, Camaro does not harbour dust mites or bacteria making it ideal for the home environment.

Initial cleaning after your new floor has been installed:

- Avoid walking on the floor for at least 24 hours following completion of installation.
- Sweep or vacuum to prevent loose dirt or grit from scratching the floor.
- Polishing your floor can be beneficial to help prevent slight surface scratches and to provide further protection.

Day to day cleaning:

- Sweep or vacuum the floor to remove loose dirt, grit or dust.
- Use clean mops and neutral cleaning solutions to regularly clean your floor. Contact Polyflor for details of approved maintenance products.
- Dilute the floor cleanser to the manufacturer’s instructions.
- Use abrasive liquids or metal scouring pads as these can damage the floor.
- Collect any excess liquid in a mop bucket.
- Rinse the floor with clear water and allow to dry.

Regular cleaning is more beneficial to the floorcovering and is more cost effective than occasional heavy cleaning.

Do:

- Install barrier mats at entrances to pick up grit and moisture (Note, some rubber-backed mats may discolor the floor).
- Ensure your furniture is fitted with protective pads where necessary to prevent scratches.
- Use protective cups under heavy furniture to prevent indentation.
- Regularly trim pets claws as these can cause fine scratches.

Don’t:

- Use abrasive liquids or metal scouring pads as these can damage the floor.
- Clean the floor with solvents, caustic detergents, washing up liquids, soap powders, bleach, furniture polishes, petroleum based products, pine gels, stain removers or highly coloured products. Such products may make the floor slippery or cause permanent damage.
- Drag furniture with unprotected feet across the floor.

We recommend that adequate UV protection be taken against products being installed in direct sunlight as fading may occur.

For clarification regarding slip resistance, consult Polyflor. See product pages (34-37) for R values.

GUARANTEE

10 Year Product Guarantee

The Camaro collection of luxury vinyl tiles has been developed to meet the highest technical specification of its type. Ideal for all areas of the home, the products ensure high performance and optimum style. In addition, Camaro is suitable for moderate commercial applications such as light traffic areas within hotels, conference rooms and small offices.

We recommend that adequate UV protection be taken against products being installed in direct sunlight as fading may occur.

CASTOR CHAIR SUITABILITY: Suitable, type W, EN 12529
UNDERFLOOR HEATING SUITABILITY: Suitable, max. 27°C

Camaro is resistant to everyday dirt and soil
Camaro is resistant to accidental splashes and temporary surface water
Dirty footprints are not a problem and can be easily wiped away
Everyday dirt and crumbs can be simply swept away

If you require any further information please contact Polyflor Customer Technical Services on +44 (0)161 767 1912, or email tech@polyflor.com.
ACCESSORIES

The realism and natural effects of the tiles and planks alone allow you to create a beautiful new floor. But to really enhance your design or to create a unique feature the below floor accessories offer a wide scope for creativity.

Grouting Strips

Typically laid between Camaro Stone tiles and available in 5 coordinating and realistic stone grout colours, Camaro Grouting Strips can also be utilised to create a room perimeter or feature area, such as around island units. As a tip, they can be used as a subtle close-to-tile colour addition or as a contrasting highlight effect.

Marquetry Strips

Used in a similar way to the Grouting Strips, Camaro Marquetry Strips are offered to create that authentic and highly desirable detailed wood floor installation. Available in 4 popular wood types, they can be inlaid between planks to create a ‘ships decking’ effect or as perimeter or highlight feature.

Feature Strips

Camaro Feature Strips provide an alternative look to the Grouting & Marquetry Strips. Available in 7 solid colourways, these strips provide a bolder and more graphic look to the installation, which are also inlaid with tiles and planks.
