

ANALOG DEVICES

CASE STUDY

Classic Mystique PUR
Nocturne
1380

Classic Mystique PUR
Silver Mist
1430

Country:
Co. Limerick,
Republic of Ireland

Vinyl flooring from Polyflor's Classic Mystique PUR and Expona Design PUR ranges was recently used to create a fresh, modern office environment for international technology company Analog Devices in Co. Limerick, Republic of Ireland.

Market Segment:
Workplace & Corporate
Offices

Polyflor flooring supplied by Provincial Floorcoverings Ltd was installed at the Analog Devices' regional headquarters by flooring contractor Southern Mosaics of Ennis, Co. Clare as part of a multi-million Euro project.

Space:
Office

500m² of Classic Mystique PUR sheet vinyl flooring in two complementary grey shades, Silver Mist 1430 and Nocturne 1380, was installed within the office canteen to provide a neutral base for the bright furniture and food serving stations. Available in 16 colours, this hardwearing, non-directional, homogeneous floorcovering was used throughout the canteen's seating and serving areas, the two colours creating different zones and pathways. 500m² of Harmony fx sheet vinyl flooring was also installed in the stairwells.

300m² of Expona Design PUR luxury vinyl tiles was also used for tea and coffee stations around the office. The linear, silver toned Light Contour 7214 design was chosen to complement the surrounding grey carpet tiles.

Both the Classic Mystique and Expona Design ranges are enhanced with PUR, Polyflor's exclusive and robust polyurethane reinforcement which is cross linked and UV cured to provide superior cleaning benefits in these areas where food and drink spillages may occur.
