Blackburn Dental Center Ottawa, ON

**PRODUCTS USED:
Expona Commerical**

Hardwearing and fashionably elegant wood effect plank vinyl flooring from Polyflor's popular Expona Commerical collection was selected to cover floors throughout Dr. Stephanie Malettes' Blackburn Dentist Center in Ottawa, Ontario.

Expona Commerical elevates the style and harnesses the sophisticated atmosphere of Dr. Stephanie Malettes' Dentist Center. Expona Commerical in Oiled Oak covers 2800sqft of the dental office.

Expona Commerical was specified by the progressive eye of Sarah Oakley from Parallel45 Design Group. To differentiate the space within the medical rooms to the outer foyer, a chevron pattern was flawlessly installed by flooring contractors from Flooring Canada.

Dr. Stephanie Malettes clients have delightfully commented that, "Going to the dentist feels like going to the spa". Showcasing the importance of a design conscious work space and it's affect on a clients mood and experience.
