Eastleigh,
United Kingdom

Type of Project:
Senior Living

Space:
Long Term Care

Polyflor's safety flooring was installed in bathroom en-suites and toilets used by residents, guests and staff to provide sustainable wet slip resistance in these areas. The Expona Control PUR range of LVT safety flooring in stunning stone effect designs - Warm Grey Concrete and Classic Yorkstone were installed in toilets on all floors. With a pimple emboss and carborundum-free safety particles for slip resistance in barefoot areas and shod such as wet rooms, Polysafe Hydro Evolve flooring in pastel shade Danube was fitted into the home's adapted bathroom and shower areas for all residents.

Safety flooring was also installed in back of house areas to keep the staff at Anya Court safe when at work. Polysafe Ultima flooring in Mortar was installed in kitchen and food preparation areas for added slip resistance where oil and grease spillages may be regularly be found. Heavy duty Polysafe Modena PUR safety flooring in the neutral Copal shade was used to complete corridors, circulation zones, staff changing areas and laundry rooms.

Jacqueline Farguson, Design Manager at Hallmark Care Homes, designed the home and specified Polyflor throughout. Jacqueline commented,

"It was vital for us to avoid a clinical look by creating a safe but homely environment for Anya Court residents that would suit their various needs. We are continually impressed with the range of attractive and fit for purpose flooring options available from Polyflor which meant we could use their products throughout this new care home and others in our portfolio."
