Bloc PUR

A high performance, heavy duty heterogeneous sheet floorcovering with a polyurethane reinforcement, Bloc is ideally suited for use within the retail, leisure and commercial sector.

- Featuring a single solid colour with a textured emboss, Polyflor Bloc PUR has a 0.70mm pigmented homogeneous PVC wear layer.
- The frequency of a regular and well planned maintenance regime should be considered at the outset to ensure the plain floorcovering retains the optimum appearance.

Environmentally Preterable Flooring - Polytior Bloc PUR achieves a BRE Global A+ rating (ENP 415) in the Green Guide to Specification in use areas such as retail, education and healthcare and is GreenTag LCA Rate certified with GreenRate level A - Silver Plus. Generic EN 15804 Environmental Product Declaration (EPD) available on request. Recyclable via the Recofloor scheme. Visit www.polyflor.ca/sustainability.

PUR - Polyflor Bloc PUR features a high quality, cross-linked polyurethane reinforcement, UV cured to provide a low-cost, polish free maintenance regime for the lifetime of the flooring. As with any plain material, the soil hiding properties are less than similarly coloured patterned floors. Higher frequency of maintenance may be required to ensure optimum appearance. Careful consideration should also be given when choosing very light colours in highly trafficked areas. The use of a robust and effective dirt barrier system should be considered early in the specification stage.

Hygiene - All Polyflor commercial sheet vinyl ranges provide a continuous, impervious and hygienic flooring solution which can be confidently cleaned in accordance with recommended maintenance procedures and approved maintenance products. The implementation of an effective cleaning regime is the most important defence against infection.
