

POLYSAFE FOR WET ROOMS WITH PUR

MAINTENANCE REGIME

- 1** Remove all loose debris.
- > Sweep or vacuum to remove dust and grit.
 - > Spot scrub regularly with a deck brush.

- 2** Apply a solution of alkaline cleanser to the floor
- > Diluted to the manufacturer's instructions and leave for sufficient time to react with the soiling.

- 3** Pick up the solution with a clean microfibre mop, using a continuous side-to-side motion.
- > Launder the dirty mophead in preparation for reuse.

- 4** Rinse the floor thoroughly with clean warm water
- > Pick up with a wet vacuum and leave to dry thoroughly.

- 1** Sweep, mop, sweep or dry vacuum the floor to remove dust and loose dirt.
- > Using a scrubbing brush or a cylindrical type scrubbing machine.

- 2** Apply a solution of diluted neutral or alkaline cleanser to the floor and leave for sufficient time to react with the soiling.
- > Pick up the solution with a clean microfibre mop, using a continuous side-to-side motion.

- 3** Launder the dirty mop heads in preparation for reuse.

- 4** Rinse the floor thoroughly with clean, warm water.
- > Pick up with a wet vacuum and leave to dry thoroughly.

- > For heavy soiling
Use a 165 rpm rotary scrubbing machine, deck scrubber or mop and bucket system with the appropriate neutral or alkaline cleanser.

- > Always follow the Health and Safety guidance provided.
- > Maintainers, polishes or floor dressings containing polish should never be applied to Polysafe PUR ranges, as this may impair slip resistance.
- > Cleaners and detergents should be diluted to the manufacturer's instructions and left for sufficient time to react with the soiling.
- > A twister or any other abrasive pad containing diamond shreds should not be used on any Polysafe ranges under any circumstances.

If in doubt, please contact Polyflor Canada.
